INTRODUCTION

The Lion Poll is an omnibus survey conducted by the Center for Survey Research (CSR) at Penn State Harrisburg. A total of 1,047 self-administered web surveys were completed by adult Pennsylvanians between April 6 and April 16, 2020. The Lion Poll used a quota-based invitation system to produce a final dataset that is representative of Pennsylvania's population by region and, separately, by age/sex combined categories. Project activity was directed by Stephanie L. Wehnau, Director of the Center for Survey Research at Penn State Harrisburg.

The purpose of the Lion Poll is to provide timely and accurate data to agencies, organizations, and researchers with statewide interests and responsibilities. Sponsors of CSR's omnibus polls have used their results to track public policy issues; measure general attitudes, awareness, and knowledge of their organizations; and measure satisfaction with organizational services and performance.

Data Analysis Notes

The following notes should be taken into account when reviewing the final dataset:

1. Data are not weighted; however, the final dataset is representative of Pennsylvania's population by region and, separately, by age/sex combined categories.
2. Percentages may not total to 100% due to the exclusion of 'Don't know' responses.
3. See Appendix A of the report for a map and list of the Lion Poll regions.
4. See Appendix B for the Director's questions and standard demographics that were used in data collection.

METHODOLOGY

Instrument Development

During February and March 2020, the CSR project team worked in consultation with the various Lion Poll sponsors to develop and refine survey questions for use in data collection.

The instrument was programmed using Qualtrics web survey software. Qualtrics' online survey platform allows for complex question patterns and automatic skipping when appropriate to create a seamless flow from one question to the next for respondents.

Respondent Recruitment

CSR utilized Marketing Systems Group (MSG) of Horsham, Pennsylvania to recruit respondents who had previously signed up to participate in a variety of web survey panels in exchange for nominal compensation. These web survey panels were constructed utilizing a double opt-in recruitment technique. In a double opt-in system, the potential respondents provide their email address to indicate interest in participating in the panel. An automated email is then sent to the email address provided to ensure that the owner of the email address is aware of the intended use. Once the email owner confirms their interest in participating, the individual becomes part of the panel. After providing information on a wide variety of demographic topics to establish a panelist profile, the panelist is eligible to participate in future surveys. A double opt-in system guarantees that all respondents have provided explicit consent to be contacted for marketing and/or research purposes in compliance with all applicable federal laws.

MSG sent emails to potential respondents that included a customized link with a respondent identifier. This link took the potential respondent directly to the web survey programmed in CSR's Qualtrics account. Upon successful completion of the survey, CSR re-directed the respondent to the appropriate panel provider via a customized link that included the unique respondent identifier. As a result of this setup, only members of the CSR project team had access to the survey results and CSR never had access to any personally identifiable information of any of the survey respondents.

Response Quality

Regular panel maintenance was performed to ensure that high-quality respondents were being utilized in the Lion Poll. First, answers to demographic questions were periodically checked to make sure that they matched with the initial panel profile established by respondents. CSR also asked screening questions in such a way that the potential respondents did not know what characteristics were required for participation. Since panelists are paid for their participation, this decreases the chance of the respondent fabricating answers to gain access to the study. CSR also embedded attention check questions and straight-lining checks into the Lion Poll to confirm that the respondent was carefully reading and responding to questions. Straight-lining is when a respondent answers all questions in a series in the same way. To check for this, one item was included in a question series in two different ways: once with positive wording and once with negative wording. If a respondent is carefully reading the questions, they will answer these questions in contrasting ways. If a respondent participated in straight-lining or answered an attention check question incorrectly, their survey was immediately terminated and their response was removed from the final dataset. In addition, CSR identifies these responses as “low-quality,” and panelists are excluded from participation in future surveys after three low-quality responses. The final dataset was also checked for duplicate responses using key demographic indicators and open-ended question responses. Finally, CSR reviewed responses for other quality measures, such as survey duration (outlying surveys that were completed very quickly were removed), and applicability of open-ended responses to prevent automated (bot) responses from being included in the final dataset.

Sample Representation

Potential respondents were invited from the universe of all available panelists on the basis of the Pennsylvania county, age, and gender indicated in their panelist profile. These questions were also asked as screener questions at the beginning of the survey to guarantee that the respondent matched the expected profile. In order to ensure that the results of the Lion Poll were not biased toward any particular location, age, or sex, CSR programmed quotas into the Qualtrics web survey platform to guarantee that the final dataset would be representative of Pennsylvania’s known population by region and, separately, by age/sex combined categories. Region quotas were developed by totaling Pennsylvania’s population by county and then determining what proportion of the state’s residents lived in the counties represented by each region.

Tables 1 and 2 display the proportions of respondents in the final dataset by age/sex category and by region. The data source used to establish quotas was the July 1, 2018 State Population Estimates, U.S. Census Bureau, Population Division. Since the final dataset was representative of Pennsylvania's population by age, sex, and region, weighting was not needed. For a map and list of the Lion Poll's regions by county, please see Appendix A.

Table 1. Final Responses by Age and Sex

	Interviewed	Census %
Male		
18-24 years	61	5.8%
25-34 years	86	8.2%
35-44 years	79	7.5%
45-54 years	84	8.0%
55-64 years	88	8.4%
65 years and over	107	10.2%
Female		
18-24 years	63	6.0%
25-34 years	87	8.3%
35-44 years	84	8.0%
45-54 years	83	7.9%
55-64 years	93	8.9%
65 years and over	132	12.6%

Table 2. Final Responses by Region

	Interviewed	Census %
Northern	77	7.4%
Central	97	9.3%
Northeast	174	16.6%
Southwest	214	20.4%
South Central	152	14.5%
Southeast	333	31.8%

It should be noted that respondents were not selected from the general population at random; rather, only respondents who opted to participate in a paid web survey panel were included in the sampling frame. In addition, as with all public opinion surveys, the results are representative only of those who chose to participate. As a result, certain biases exist that might prevent a direct comparison to Pennsylvania's general population. Namely, results may be biased against those who are less likely to participate in web survey panels (sample frame bias) or those panelists who chose

not to participate in this survey (non-response bias). In addition, although respondents who do not have access to the internet at home are less likely to sign up for web survey panels, they are not excluded from participating, and may do so through the use of public internet access, mobile phones, or internet at their place of employment. Finally, respondents received a small incentive to participate, although this is considered to be negligible in terms of overall survey bias.

To minimize these potential biases, key demographic responses were monitored and compared to Census data to ensure that the final sample was reflective of characteristics that are known to potentially bias responses. Rigorous efforts were employed to ensure that the characteristics of the respondents in the final dataset are representative of Pennsylvania's diverse population, despite the non-probability-based sampling method employed. Although the Lion Poll is considered to be a non-probability-based sampling method, the quotas utilized resulted in a final dataset that is representative of Pennsylvania's population by region, age, and sex.

Data Collection

Surveys were self-administered through Qualtrics Online Survey Platform. As mentioned previously, rigorous strategies were employed to ensure high-quality survey responses from trusted panelists. A 'soft launch' was performed where a working draft of the survey instrument was pre-tested with a small sample of respondents before full survey distribution began. The pre-test process ensured that the skipping patterns of the programmed survey instrument were functioning as intended. Pre-testing also increases the likelihood that the questions provide accurate data while decreasing the likelihood of collecting unusable data; therefore, it is an integral component of questionnaire design. The pre-test findings were reviewed, found to be error-free, and incorporated into the final dataset.

Survey responses were collected through CSR's Qualtrics web survey account between April 6 and April 16, 2020. Waves of survey invitations were sent by Marketing Systems Group to potential survey respondents based on the panelists' profile characteristics and the remaining region and age/sex quota needs. Respondents who indicated that they were at least 18 years of age and lived in Pennsylvania were deemed eligible to participate. Survey collection ended when CSR received 1,047 responses.

Data Preparation and Analysis Notes

All completed survey data were extracted from Qualtrics into Statistical Package for the Social Sciences (SPSS) software. Data were verified for accuracy of variable coding, and verbatim text was edited for consistency in formatting before final review by the senior staff of the Center for Survey Research. A survey dataset was created in SPSS for Windows version 26.0.

The following notes should be taken into account when reviewing the final dataset:

1. Data are not weighted; however, the final dataset is representative of Pennsylvania's population by region and, separately, by age/sex combined categories.
2. Percentages may not total to 100% due to the exclusion of 'Don't know' responses.
3. See Appendix A of the report for a map and list of the Lion Poll regions.
4. See Appendix B for the sponsored survey questions and standard demographics that were used in data collection.

PROJECT STATISTICS

The final dataset includes responses from 1,047 adult Pennsylvania residents. The average length of a completed survey was approximately 16 minutes. A total of 4,876 different panelists were invited to participate in the survey during data collection. The survey's participation rate was calculated using the American Association of Public Opinion Research's Response Rate 3 (RR3) formula. RR3 is obtained by dividing the number of completed interviews by the sum of the numbers of completed interviews, partially completed interviews, refusals, and non-contacts. The participation rate is then adjusted by estimating the proportion of cases of unknown eligibility based on the known proportion of eligible cases of all cases for which eligibility was determined. This is a conservative estimate that ultimately underestimates the true participation rate. AAPOR sets an industry standard for consistent reporting among survey researchers. For more information, see AAPOR's "Standard Definitions report" at [http://www.aapor.org/Standards-Ethics/Standard-Definitions-\(1\).aspx](http://www.aapor.org/Standards-Ethics/Standard-Definitions-(1).aspx).

The final survey participation rate was 32.9%. It should be noted that this rate estimates for eligibility based on eligibility screening criteria (i.e., age and geography) and the utilization of quotas. The rate does not estimate eligibility based on the validity of the respondent's email address; therefore, the functional participation rate is much higher than the reported rate. The participation

rate is largely influenced by the quotas employed to ensure that the final dataset is representative of Pennsylvanians by age and sex category and, separately, by region. The reduced need for weighting ultimately improves the precision of the survey estimates, and participation rate is considered to be less relevant in assessing the quality of web panel surveys.

Margin of Error

The margin of error for this survey is ± 3.0 percentage points with the conventional 95% degree of desired confidence. This means that in a sample of 1,000 respondents where the distribution of responses is within the vicinity of 50%, there is a 95% chance that if the survey were repeated, the results would not differ from the survey findings by more than 3.0 percentage points. A more extreme distribution of question responses has a smaller error range. Suppose that 80% of the respondents answer “Yes” and 20% answer “No;” then the sampling error in this case is 2.4 percentage points. That is, each percentage has a sampling error of ± 2.4 percentage points.

DEMOGRAPHIC PROFILE OF SURVEY RESPONDENTS

The following table displays the frequencies and percentages of survey respondents by key demographic characteristics.

Table 3. Demographic Profile of Respondents¹

		Number	Percent
Gender			
	Male	505	48.2%
	Female	542	51.8%
Age Category			
	18-34 years	297	28.4%
	35-64 years	511	48.8%
	65 years of age or older	239	22.8%
Race/Ethnicity			
	Hispanic	46	4.4%
	White, non-Hispanic	867	83.2%
	Black - African American, non-Hispanic	67	6.4%
	Some other race (includes 2+ races), non-Hispanic	62	6.0%
Marital Status			
	Single / Never married	296	28.4%
	Married / Living with partner	586	56.2%
	Widowed / Divorced / Separated	161	15.4%

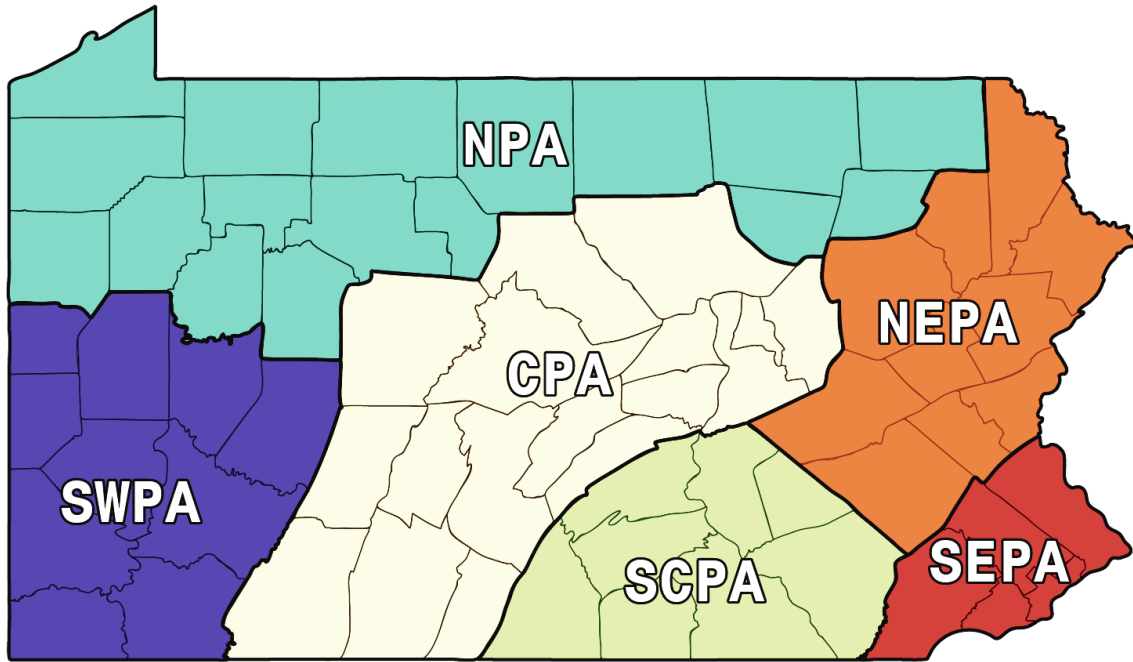

¹ Numbers may not add up to 1,047 due to rounding and the exclusion of “don’t know” responses.

Table 3 (Continued). Demographic Profile of Respondents²

	Number	Percent
Educational Attainment		
High school diploma/GED or less	294	28.1%
Some college (including 2-year/technical degree)	371	35.5%
Four-year college degree	261	25.0%
Graduate work	119	11.4%
Household Income		
Less than \$30,000	259	25.8%
\$30,000 to \$59,999	325	32.4%
\$60,000 to \$99,999	239	23.9%
\$100,000 or more	179	17.9%
Region		
Northern	77	7.4%
Central	97	9.3%
Northeast	174	16.6%
Southwest	214	20.4%
South Central	152	14.5%
Southeast	333	31.8%
County Density		
Urban	789	75.4%
Rural	258	24.6%
Voter Registration		
Registered to vote	861	83.0%
Not registered to vote	176	17.0%
Political Affiliation		
Republican	325	38.4%
Democrat	384	45.4%
Other (inc. Independent, Libertarian, & No Affiliation)	137	16.2%
Political Ideology		
Conservative	320	33.2%
Moderate	386	40.0%
Liberal	258	26.8%
Child Status		
Minor children living in household	297	28.4%
No minor children living in household	750	71.6%
Household Size		
Total household size	Mean	
Number of adults living in household	2.69	
Number of minor children living in household	2.18	
	0.51	

² Numbers may not add up to 1,047 due to rounding, as well as the exclusion of “don’t know” responses.

APPENDIX B – SURVEY INSTRUMENT

Intro.

You are invited to participate in a survey that is being conducted by the Center for Survey Research at Penn State Harrisburg.

Please click ">>" to tell us a bit about yourself.

State. In what state do you live?

- ☐ Connecticut (1)
 - ☐ Delaware (2)
 - ☐ Maryland (3)
 - ☐ New Jersey (4)
 - ☐ New York (5)
 - ☐ Ohio (6)
 - ☐ Pennsylvania (7)
 - ☐ Virginia (8)
 - ☐ Some other state (9)
-

County. In what county do you live?

- ☐ I do not live in Pennsylvania (777)
 - ☐ I don't know what county I live in (888)
 - ☐ List of Pennsylvania counties (1 → 133, FIPS codes)
-

Zip. What is your zip code?

Gender. Which of the following best describes your gender?

- ☐ Male (1)
- ☐ Female (2)

Age. What is your age?

Programming Note: If the respondent lives in Pennsylvania, provides their county, provides a valid Pennsylvania zip code, and is 18 years of age or older, they proceed to the survey. Otherwise, they are not eligible.

Inform. Thank you for that information. You are eligible to participate in the survey. Please read the following information carefully and indicate whether you agree to participate in the survey below.

Your participation is voluntary, and the survey takes about 15 minutes. All of your answers will remain confidential. No one on the research team has access to your personal information. You have the right to end the survey at any time. If you have any questions about the survey, please feel free to contact the Center for Survey Research at PSUsurveys@psu.edu. Your voluntary participation indicates your consent to participate in this research. Are you willing to participate?

- ☐ Yes, I am willing to participate (1) → Continue to survey
- ☐ No, I am not willing to participate (2) → End survey
- ☐ Don't know / Not sure (9) → End survey

Agree. Thank you for agreeing to participate! The first questions ask about **the United States and Pennsylvania**.

US_Dir. Generally speaking, would you say that things in the **United States** are going in the right direction, or going in the wrong direction?

- ☐ Right direction (1)
- ☐ Wrong direction (2)
- ☐ Don't know / not sure (9)
-

PA_Dir. Now thinking about **Pennsylvania**, would you say that things are going in the right direction, or going in the wrong direction?

- ☐ Right direction (1)
- ☐ Wrong direction (2)
- ☐ Don't know / Not sure (9)
-

Confidence. How much **confidence** do you have in each of the following levels of government to fix domestic problems? *Note: Rotate order of presentation of government levels.*

	Quite a lot (4)	Some (3)	Very little (2)	None at all (1)	Don't know / Not sure (9)
Federal government in Washington (Conf_Fed)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Pennsylvania state government (Conf_State)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Local government (Conf_Local)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

TrustMore. Who do you trust **more** to fix Pennsylvania's problems? *Note: Rotate presentation of responses 1 and 2.*

- ☐ Pennsylvania state legislature (1)
 - ☐ Governor Wolf (2)
 - ☐ I do not trust either one more than the other (3)
 - ☐ Don't know / Not sure (9)
-
-

T_COVID The next questions ask about the coronavirus, also known as COVID-19.

COVID_GENCONCERN Are you very concerned, somewhat concerned, not very concerned, or not concerned at all about the spread of coronavirus to your community?

- ☐ Very concerned (4)
- ☐ Somewhat concerned (3)
- ☐ Not very concerned (2)
- ☐ Not concerned at all (1)
- ☐ Don't know / Not sure (9)

ROTATE: COVID_ENOUGH_TRUMP AND COVID_ENOUGH_WOLF

COVID_ENOUGH_TRUMP Do you think that President Trump is doing too much, just the right amount, or not enough to prevent the spread of coronavirus?

- ☐ Doing too much (1)
- ☐ Doing just the right amount (2)
- ☐ Not doing enough (3)
- ☐ Don't know / Not sure (9)

COVID_ENOUGH_WOLF Do you think that Governor Wolf is doing too much, just the right amount, or not enough to prevent the spread of coronavirus?

- ☐ Doing too much (1)
 - ☐ Doing just the right amount (2)
 - ☐ Not doing enough (3)
 - ☐ Don't know / Not sure (9)
-

COVID_REAL Do you think the coronavirus is a real threat or blown out of proportion?

- ☐ A real threat (1)
- ☐ Blown out of proportion (2)
- ☐ Don't know / Not sure (9)

COVID_HEALTHSYSTEM How confident are you that the health care system in the United States can handle the coronavirus pandemic?

- ☐ Very confident (4)
- ☐ Somewhat confident (3)
- ☐ Not very confident (2)
- ☐ Not at all confident (1)
- ☐ Don't know / Not sure (9)

COVID_THREAT How much of a threat is the coronavirus outbreak for each of the following?

	Major threat (3)	Minor threat (2)	Not a threat (1)	Don't know / Not sure (9)
The U.S. economy (COVID_THREAT_USEcon)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The health of the U.S. population as a whole (COVID_THREAT_USPop)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Day-to-day life in your community (COVID_THREAT_CommLife)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Your personal financial situation (COVID_THREAT_PersFin)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Your personal health (COVID_THREAT_PersHealth)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

COVID_TRUST How much do you trust each of the following to give you information about the coronavirus?

	A great deal (4)	A good amount (3)	Not very much (2)	Not at all (1)	Don't know / Not sure (9)
President Trump (COVID_TRUST_Trump)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Vice President Pence (COVID_TRUST_Pence)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Governor Wolf (COVID_TRUST_Wolf)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
PA Secretary of Health Dr. Rachel Levine (COVID_TRUST_Levine)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Federal government health agencies, such as the Centers for Disease Control (CDC) or the National Institutes for Health (NIH) (COVID_TRUST_FedHealthAgencies)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
State government health agencies, such as the PA Department of Health (COVID_TRUST_StateHealthAgencies)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Medical providers, such as doctors and nurses (COVID_TRUST_Medical)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Researchers who specialize in related topics, such as infectious disease experts and epidemiologists (COVID_TRUST_Researchers)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
The news media (e.g., cable news, network news, newspapers, etc.) (COVID_TRUST_News)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Local government officials or representatives (COVID_TRUST_LocalGov)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Police organizations or officers (COVID_TRUST_Police)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Friends and family (COVID_TRUST_FriendsFamily)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

COVID_INFO Where do you get **MOST** of your information about the coronavirus?

- ☐ President Trump (1)
 - ☐ Vice President Pence (2)
 - ☐ Governor Wolf (3)
 - ☐ PA Secretary of Health Dr. Rachel Levine (4)
 - ☐ Federal government health agencies, such as the Centers for Disease Control (CDC) or the National Institutes for Health (NIH) (5)
 - ☐ State government health agencies, such as the PA Department of Health (6)
 - ☐ Medical providers, such as doctors and nurses (7)
 - ☐ Researchers who specialize in related topics, such as infectious disease experts and epidemiologists (8)
 - ☐ The news media (e.g., cable news, network news, newspapers, etc.) (9)
 - ☐ Local government officials or representatives (10)
 - ☐ Police organizations or officers (11)
 - ☐ Friends and family (12)
 - ☐ Other, please specify: (88) _____
-

COVID_MENTALHEALTH Do you feel that worry and/or stress related to coronavirus have had a negative impact on your mental health, or not?

- ☐ Yes (1)
 - ☐ No (2)
 - ☐ Don't know / Not sure (9)
-

COVID_WORRY How worried, if at all, are you about each of the following?

	Very worried (4)	Somewhat worried (3)	Not very worried (2)	Not worried at all (1)	Don't know / Not sure (9)
You or someone in your family will get sick from the coronavirus (COVID_WORRY_Family)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Your investments such as retirement or college savings will be negatively impacted by coronavirus (COVID_WORRY_Savings)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
You will lose income due to a workplace closure or reduced hours because of coronavirus (COVID_WORRY_WorkClosure)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
You will not be able to afford testing or treatment for coronavirus if you need it (COVID_WORRY_AffordTesting)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
You will put yourself at risk of exposure to coronavirus because you can't afford to stay home and miss work (COVID_WORRY_Exposure)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

COVID_BEHAVIORS Have you experienced any of the following because of coronavirus?

	Yes (1)	No (2)	Don't know / Not sure (9)
Stocked up on food, supplies, or prescriptions (COVID_BEHAVIORS_Stocked)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Changed travel plans (COVID_BEHAVIORS_Travel)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Cancelled plans to avoid crowds (COVID_BEHAVIORS_Crowds)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Changed your work routine (COVID_BEHAVIORS_WorkRoutine)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Been let go at work (laid off) or had your work hours reduced (COVID_BEHAVIORS_WorkReduced)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Bought or worn a protective mask (COVID_BEHAVIORS_Mask)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Select don't know for this question (AttnChkCOVID)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Been unable to get certain items (Cleaning supplies or hand sanitizer / Groceries / Prescription medicines) (COVID_BEHAVIORS_Unable)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Tried to be tested for coronavirus but haven't been able to (COVID_BEHAVIORS_Tested)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Had to find alternative childcare outside of your home (COVID_BEHAVIORS_ChildcareOutside)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Had to care for children at home (COVID_BEHAVIORS_ChildcareHome)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

COVID_TEST_ANY Do you know someone, personally, who has tested positive for coronavirus?

- ☐ Yes (1)
 - ☐ No (2)
 - ☐ Don't know / Not sure (9)
-

COVID_TEST_SELF Have you, yourself, been tested for coronavirus?

- ☐ Yes (1)
 - ☐ No, I have NOT tried to get tested (2)
 - ☐ No, and I HAVE tried to get tested, but was not able to get tested (3)
 - ☐ Don't know / Not sure (9)
-

Display This Question: If Have you, yourself, been tested for coronavirus? = Yes

COVID_POSITIVE Was your coronavirus test positive?

- ☐ Yes (1)
 - ☐ No (2)
 - ☐ Don't know / Not sure / Have not gotten results back yet (9)
-

Display This Question: If Have you, yourself, been tested for coronavirus? = No, I have NOT tried to get tested

COVID_TEST_REASON Do you have any reason to believe that you should be tested for coronavirus (e.g., specific symptoms or exposure to a known coronavirus case)?

- ☐ Yes (1)
- ☐ No (2)
- ☐ Don't know / Not sure (9)

Media
